- Easy-to-understand cycle modifier prompts will encourage your customers to customize their dry
- Flexible pricing & additional revenue opportunities with customizable cycle modifiers, time-of-day pricing and lucky cycle options
- 30+ languages available
- On screen timer so your customers know exactly how much time their cycle will take
- Flexible Payment Options - Coin, Card, Mobile, Cash

SPEED QUEEN® QUANTUM® TOUCH

Tumble Dryers

Our tumble dryers are built with a single purpose: performance. They are specifically designed with fewer moving parts, so you'll face fewer maintenance issues over their lifespan.

- 5", full color, touch screen display on stack tumble dryers (7" display on single tumble dryers)
- Chrome door ring
- Lint trap blends in with front panel for a sleek, modern look
- Innovative stainless steel cylinder
- Reversing cylinder now comes standard
- Patented oval cylinder perforations prevent small metal objects from passing through and damaging the dryer's sweep sheets
- Axial Airflow provides the most concentrated and efficient drying possible to make dry times even faster, while saving you money

 5 Year
Warranty See Speed Queen Warranty Bond for specifics.

**SPEED QUEEN®
INSIGHTS
READY**

Take your business to new levels of efficiency and profitability with advanced analytics and customer data—all integrated into the same platform with the rest of your business management tools. Know how often each customer visits, which machines they use, how they pay, and use that information to increase your revenue through stronger customer relationships and a more rewarding laundry experience.

ProCapture™
BY SPEED QUEEN®

Our industry-first solution captures up to 98% of lint, reducing service and cleaning costs. More lint capture reduces lint buildup on building HVAC systems, equipment components, and creates a cleaner environment for employees and customers.*

* Results derived from internal lab testing environment produced up to 98% lint capture efficiency with bath towel loads dried at 185 degrees Fahrenheit. No independent lab testing was conducted. These results represent findings from controlled laboratory conditions and may not accurately simulate real-world usage of the product as effectiveness can vary widely depending on factors such as method of use, load type, environment, individual user characteristics, and other circumstances.

* Not available on all capacities
